F: (217) 398-4119

feedac@assoqh.org

Welcome to the August 2007 FeedAC e-mail update. The following is a glimpse of the month's activity.

- ❖ **Note to all FeedAC Members:** The member's survey released on Monday, August 20 will be extended until close of business on **Tuesday, September 11**. If you haven't had an opportunity to take the survey yet, please do so ASAP by logging into the FeedAC website using your user criteria. The link will appear at the top of the homepage once you log in.
- ❖ Discussions are currently under way between FeedAC, the National Forage Testing Association (NFTA) and the NIRS Forage and Feed Testing Consortium (NIRSC) on how the organizations can work together to increase efficiency and productivity.
- ❖ The 2006 – 2007 President's and Executive Director's Reports are now available for members to view. These are excellent reviews of the progress and accomplishments of the Consortium for the last 12 months.
- ❖ Great discussions have been had in the **Protein & Amino Acids** forum of the FeedAC website. Thank you to everyone who has contributed thus far and we expect discussions to ramp up in September as we work to get more data up on the FeedAC website for members to see and discuss.
- ❖ Appreciation is extended to FeedAC's past-president, Kenneth Cummings, for his excellent leadership, outstanding devotion and continued support of the Consortium.

Please visit www.feedac.org to view the latest information on all these events plus more.

Thank you.
