Welcome to the February 2007 FeedAC e-mail update. The following is a quick glimpse at this month's activity.

- ❖ Spence Driver, FeedAC President-Elect, spoke at the 2007 NIRS Feed & Forage Testing Consortium Annual Conference on February 6, 2007. Spence updated the audience on FeedAC's recent activities and answered questions. A well deserved "Thank You" to the NIRS Consortium for allowing Spence the opportunity to attend and speak.
- ❖ Thank you and welcome to all new Collaborators. The Collaborator group continues to grow and some exciting opportunities are being discussed. If you wish to be a collaborator for 2007, please visit the following weblink and sign up. http://www.feedac.org/collab_form.asp
- ❖ FeedAC has received written confirmation from Perten Instruments that they will be providing an instrument for Consortium use. FeedAC has received verbal confirmation from UNITY Scientific that they will provide an instrument as well. We hope to have all instruments in place by the end of March for sample scanning.
- ❖ A total of 2,283 membership packets will be sent out for FeedAC membership. Keep your eyes peeled for yours in your mailbox.
- ❖ The FeedAC Board of Directors has finalized their second annual meeting for March 21-22, 2007 in Des Moines, IA. This meeting will commence immediately following the Midwestern ADSA/ASAS meetings.
- ❖ Many people have been asking about Chuck Schwab's progress following his December health issues. We are pleased to report that Chuck is recovering ahead of schedule and is doing great! Thank you to all concerned individuals.

Please visit www.feedac.org to view the latest information on all these events plus more.

Thank you for your time.

Sincerely,

FeedAC Board of Directors
