F: (217) 398-4119

feedac@assoqh.org

Welcome to the July 2007 FeedAC e-mail update. The following is a glimpse of the month's activity.

- ❖ Congratulations and welcome to the new FeedAC Board of Directors; Rick Grant, Marvin Stevenson and Dave Taysom. All 3 are dynamic additions to the FeedAC Board. A very sincere thank you to Dirk Hoehler and Peter Robinson for their time and effort during their board terms.
- ❖ Thank you to all members who attended the FeedAC Business Meeting in San Antonio, TX. Many issues were discussed, new feed analysis data was shared, and Spence Driver was inaugurated as President. We are working on getting the shared data from the meeting up on the website for all members to view.
- ❖ Another thank you to all meeting attendees who shared their comments regarding the sample members' survey that was handed out at the meeting. The official members' survey will now be put together incorporating your feedback and will be conducted via the website in August. Please keep on the lookout for an email notice regarding the commencement of the survey.
- ❖ Great discussions have started in the **Lipids/Fatty Acids, Proteins/Amino Acids and Feed Additives – Ruminants** forums on the website. If you have people within your company that you think should have input into what feeds get analyzed for, please become a sponsor of FeedAC and have your people listed as members so they can participate in the discussions. We also hope that individuals will also continue to sign up as Collaborators or Level 4 members and participate in these discussions. To sign up as a Collaborator, please visit the following web-link. http://www.feedac.org/collab_form.asp
- ❖ The proposed changes to the Constitution and Bylaws will be sent soon to members for ratification. These proposed modifications will make them consistent with the changes in our organization and operational structure.
- ❖ **NEW:** Members will be able to view the 2007 **Presidents and Executive Directors** reports on the website next week.
