Susie Rahn

1111 N. Dunlap Avenue

Savoy, IL 61874

(217) 356-3182 x30

feedac@assochn.org

- ❖ The move has been completed. The operational headquarters for FeedAC is now located in Homer, NY. The new contact information follows:

FeedAC, Inc.

Office Phone: (607) 749-7400

45 N. Fulton St.

Office Fax: (607) 749-7401

Homer, NY 13077

Email: fred.lundy@feedac.org

- ❖ FeedAC is pleased to announce the addition of Susie Rahn to the FeedAC team. Susie was hired by FASS to be the FeedAC and ARPAS administrative assistant in Savoy, IL. Please be sure to say "hello" when you see her in San Antonio.
- ❖ Screening analysis data is now online for the DDGS and fishmeal, along with the soy products (<http://www.feedac.org/feeddb/MainDB.asp>).
- ❖ As a result of member discussions, **THREE** new Focus Groups have been added to the discussion area (<http://www.feedac.org/discussion/>): Energy Values for Feedstuffs, Feed Additives – non ruminants and Feed Additives – ruminants. It is within the focus groups such as these that FeedAC members will discuss and make decisions on feed analysis, data reporting, etc.
- ❖ Sample sets of soy products, fishmeal and DDGS are now ready for **Intensive Analysis**. Discussions have started and will not be completed until there is more member involvement and white papers have been established. A preview of the type of advanced methods of feed analysis that need to be discussed and decisions made upon will be shared at the FeedAC Business Meeting as part of the operations report.
- ❖ The FeedAC Members' Business Meeting, held at this year's National ADSA/AMPA/ASAS/PSA meeting in San Antonio, TX is on Wednesday, July 11, 2007 from **12:30 to 2:00 PM in Convention Center Room 206**. (**PLEASE NOTE:** the time and location listed in the official program book is incorrect)
- ❖ If you are not sure if you are a member or not, please check the following link to see if your name is listed, <http://www.feedac.org/members.asp?view=list>. If you are still not sure, call Fred or Chuck to find out.

Please visit www.feedac.org to view the latest information on all these events plus more.

Thank you.

Feed Analysis Consortium, Inc.

Dedicated to the advancement of feed analysis and nutritional modeling / Where feeds, feed analysis, ration formulation and animal production come together...
